

2nd Nordic Meeting on Tumor Microenvironment in Lymphoma

Chair: Francesco d'Amore and Christian Steidl

Thursday 18 May 2017

8.30-8.50	Coffee and registration	
8.50-9.00	Francesco d'Amore and TBD	Welcome and introduction
Key note lectures – THE TUMOR MICROENVIRONMENT		
Chair: F. d'Amore, Aarhus and Christian Steidl		
9.00-9.30	Peter Friedl, Nijmegen	Serial Killing of Tumor Cells – Imaging the Microenvironment
9.30-10.00	Giorgio Trinchieri, Bethesda	Cancer as a Meta-Organism – Fine-Tuning of Tumor Progression and Response to Therapy by Microbiota- Regulated Immune Cells
10.00-10.30	Steve Ansell, Rochester	Targeting the microenvironment in lymphoma
10.30-11.00	BFB (brain food & beverages)	
Session 1 – HODGKIN LYMPHOMA		
Chair: C. Steidl, Vancouver and P.Kamper, Aarhus		
11.00-11.30	Ralph Küppers, Cologne	Immune system and tumor microenvironment in HL
11.30-12.00	Christian Steidl, Vancouver	Predictive signatures in HL
12.00-12.30	Peter Johnson, Southampton	RATHL trial-correlative biology
12.30-12.50	Ingrid Glimelius, Uppsala	Nordic data
Lunch 12.50-14.00		
Session 2 – DLBCL		
Chair: Thomas Witzig and Sirpa Leppä, Helsinki		
14.00-14.30	Anas Younes, New York	Novel Agents for Aggressive B- Cell Lymphoma: Biological basis and clinical results
14.30-15.00	Reiner Siebert, Ulm	Genetic alterations in DCBCL impacting the microenvironment
15.00-15.30	Thomas Witzig, Rochester	Microenvironment targeted therapies in DLBCL
15.30-15.50	Sirpa Leppä, Helsinki	Nordic data
15.50-16.15	BFB (brain food & beverages)	

Session 3 – PTCL and CTCL

Chair: Wing Chung Chan, City of Hope and Francesco d'Amore, Aarhus

16.15-16.45	Wing Chung Chan, City of Hope	Molecular pathogenesis and biology with focus on AITL and PTCL-NOS
16.45-17.15	Giorgio Inghirami, New York	Advances in understanding the pathogenesis of systemic ALCL
17.15-17.45	Andrew Feldmann, Rochester	The DUSP22 story
17.45-18.05	Francesco d'Amore, Aarhus	Nordic data

19.30 Conference dinner

Friday 19 May 2017

8.15-8.45 Coffee

Session 4 – Follicular Lymphoma

Chair: John Gribben, London and Marianne Brodtkorb

8.45-9.15	John Gribben, London	The tumoral microenvironment in FL and implication for transformation
9.15-9.45	Laura Pasqualucci, New York	Genetic pathways to transformation
9.45-10.00	Marianne Brodtkorb, Oslo	Updated Nordic data on FL transformation

10.00-10.30 BFB (brain food & beverages)

Session 5 – Mantle Cell Lymphoma

Chair: Elias Campo, Barcelona and Mats Jerkeman, Lund

10.30-11.00	Elias Campo, Barcelona	What have we learned about the tumor microenvironment of MCL?
11.00-11.30	Victoria Amador, Barcelona	Recent biological findings on tumor microenvironmental features in MCL
11.30-11.45	Mats Jerkeman, Lund	Novel targeted strategies in MCL
11.45-12.00	Chairman	Concluding remarks and next meeting in 2018

12.30 Lunch / lunch box & see you in 2018
